

Moad Ahmed Abdesselam Mekki

Front-End Web Developer & Network Engineer

■ Oran, Algeria | ■ +213 698 310 367 | ✉ moadahmedabdesselammekki@gmail.com | ■ github.com/MOAD-Mekki

PROFESSIONAL PROFILE

Front-end developer and telecommunications engineering student with hands-on experience building responsive web applications using React.js and modern JavaScript. Passionate about clean UI, practical projects, and continuous learning. Complementary background in networking and system administration adds a strong technical depth.

PROJECTS

Personal Web Portfolio (github.com/MOAD-Mekki/portfolio)

React.js · CSS3 · GitHub Pages

- Designed and built a fully responsive portfolio showcasing projects, skills, and background.
- Implemented clean, modern UI with custom CSS animations and mobile-first layout.
- Deployed and version-controlled via GitHub.

Telegram Tracer

React.js · Telegram API · REST API

- Full-stack web app integrating Telegram APIs to allow users to interact with Telegram data.
- Built a modern, responsive front-end interface in React consuming API endpoints (GET/POST).
- Handled async data fetching, error states, and dynamic UI updates.

Khatma Tracker

HTML5 · CSS3 · JavaScript ES6 · localStorage

- Web app to track Quran reading progress using Hizb or Juz divisions.
- Persists user progress across sessions using the browser's localStorage API.
- Focused on a simple, intuitive UX for daily use.

30 Days of JavaScript

Vanilla JavaScript ES6+

- A structured self-learning project of 30 daily mini-apps covering JS fundamentals to advanced topics.
- Topics include DOM manipulation, closures, async/await, fetch API, events, and data structures.
- Demonstrates consistency, self-discipline, and a solid understanding of core JavaScript.

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript ES6+
Framework	React.js
Styling	Tailwind CSS, CSS3 Animations
Tools	Git, GitHub
APIs	REST API integration (GET & POST)
Storage	localStorage, State Management

EDUCATION

Engineer's Degree – Telecommunications & ICT (*in progress*)

ENSTTIC – École Nationale Supérieure des Télécommunications et TIC | 2nd Year

ADDITIONAL SKILLS – NETWORKING

While my primary focus is front-end development, I hold a solid foundation in networking that strengthens my understanding of how web applications communicate at a deeper level.

Protocols	VLAN & Inter-VLAN Routing (802.1Q), OSPF, RIP, NAT (Static/Dynamic/PAT), DHCP, ACL, AAA
-----------	---

Tools	Huawei eNSP (network simulation), Huawei VRP CLI, network debugging & diagnostics
-------	---

Experience	Designed and deployed enterprise LAN/WAN topologies; secured access with AAA framework
------------	--

Certification	HCIA-Datcom – Huawei (2026)
---------------	-----------------------------

LANGUAGES

Arabic	Native	French	Advanced	English	Technical proficiency
